

Analysis of Algorithms (BDSF25M/A)

Date: 20-Apr-2026

Quiz 03

Time: 15 min

Roll No: _____ **Name:** _____

Grading	CLO-1	CLO-2	CLO-3	CLO-4
	/	/	/	/

Ternary Heaps are like binary heaps, in which every node can have three children left, mid and right. Rest the concepts, terms and rules are similar/extended from binary heaps. You need to describe the formula for left, mid, right child and parent nodes, also altered heapify and insert functions for the ternary heaps.
